

Five Year Plans and NITI Aayog

FIVE YEAR PLANS

Introduction:

Indian planning is an open process. Plan making in India has evolved as a responsive democratic political process and the culmination of the same in the final document is an impressive manifestation of the workings of an open society.

History Of Planning in India & Origin of Five-Year Plans:

Though the planned economic development in India began in 1951 with the inception of **First Five Year Plan**, theoretical efforts had begun much earlier, even prior to the independence.

Setting up of **National Planning Committee by Indian National Congress** in 1938, The **Bombay Plan & Gandhian Plan** in 1944, **Peoples Plan** in 1945 (by post war reconstruction Committee of Indian Trade Union), **Sarvodaya Plan** in 1950 by Jaiprakash Narayan were steps in this direction.

- **Five-Year Plans (FYPs) are centralized and integrated national economic programs.**
- **Joseph Stalin implemented the first FYP in the Soviet Union in the late 1920s.** Most communist states and several capitalist countries subsequently have adopted them. China and India both continue to use FYPs, **although China renamed its Eleventh FYP**, from 2006 to 2010, a **guideline (guihua)**, rather than a plan (jihua), to signify the central government's more hands-off approach to development.
- **After independence, India launched its First FYP in 1951**, under socialist influence of first Prime Minister Jawaharlal Nehru. The process began with setting up of **Planning Commission in March 1950** in pursuance of declared objectives of the Government to promote a **rapid rise in the standard of living of the people by efficient exploitation** of the resources of the country, increasing production and offering opportunities to all for employment in the service of the community. **The Planning Commission was charged with the responsibility of making assessment of all resources of the country, augmenting deficient resources, formulating plans for the most effective and balanced utilization of resources and determining priorities.**

Five Year Plans and NITI Aayog

OUTLINE OF VARIOUS FIVE-YEAR PLANS:

Plan	
First Plan (1951 - 56)	It was based on Harrod-Domar Model (growth in an economy is dependent on the level of savings and investment therein).
	The Plan Focused on agriculture , Price stability, power and transport
	It was a successful plan primarily because of good harvests in the last two years of the plan. Objectives of rehabilitation of refugees, food self-sufficiency & control of prices were more or less achieved.
Second Plan (1956 - 61)	The Plan is also called Mahalanobis Plan .
	The Plan Focussed on rapid industrialization- heavy & basic industries . Advocated huge imports through foreign loans .
Third Plan (1961 - 66) Target Growth: 5.6% Actual Growth: 2.8%	At its conception, it was felt that Indian economy has entered a “ take- off stage ”. Therefore, its aim was to make India a ' self-reliant ' and ' self-generating ' economy.
	Based on the experience of first two plans (agricultural production was seen as limiting factor in India's economic development), agriculture was given top priority to support the exports and industry.
	The Plan was thorough failure in reaching the targets due to unforeseen events - Chinese aggression (1962), Indo-Pak war (1965), severe drought 1965-66 . Due to conflicts the approach during the later phase was shifted from development to defense & development .
	This plan was also called Gadgil plan.
Three Annual	Failure of Third Plan that of the devaluation of rupee (to boost exports) along with inflationary recession led to postponement of Fourth FYP. Three Annual Plans were introduced instead.

Five Year Plans and NITI Aayog

Plans (1966-69) Plan holiday.	During these plans a whole new agricultural strategy was implemented. It involving wide-spread distribution of high-yielding varieties of seeds , extensive use of fertilizers, exploitation of irrigation potential and soil conservation.
Fourth Plan (1969 - 74)	Refusal of supply of essential equipments and raw materials from the allies during Indo Pak war resulted in twin objectives of “growth with stability “and “progressive achievement of self-reliance “for the Fourth Plan. Main emphasis was on growth rate of agriculture to enable other sectors to move forward. Influx of Bangladeshi refugees before and after 1971 Indo-Pak war was an important issue along with price situation deteriorating to crisis proportions and the plan is considered as big failure. Nationalization of 14 banks in 1969.
Fifth Plan (1974-79) Target Growth: 4.4% Actual Growth: 4.8%	It proposed to achieve two main objectives: 'removal of poverty' (Garibi Hatao) and 'attainment of self-reliance' Promotion of high rate of growth, better distribution of income and significant growth in the domestic rate of savings were seen as key instruments. 20 point programme. The final Draft of fifth plan was prepared and launched by D.P. Dhar Due to high inflation, cost calculations for the Plan proved to be completely wrong and the original public sector outlay had to be revised upwards.
Rolling Plan (1978 - 80)	There were 2 Sixth Plans. Janta Govt. put forward a plan for 1978- 1983 emphasizing on employment, in contrast to Nehru Model which the Govt criticized for concentration of power, widening inequality & for mounting poverty. However, the government lasted for only 2 years. Congress Govt. returned to power in 1980 and launched a different plan aimed at directly attacking on the problem of poverty by creating conditions of an expanding economy.
Sixth Plan (1980 - 85)	The plan focuses on increasing national income, modernizing technology, and reducing poverty and unemployment through schemes like TRYSEM, IRDP, and NREP. Broadly, the sixth Plan could be taken as a success as most of the target were realized even though during the last year (1984-85) many parts of the country faced severe famine conditions and agricultural output was less than the record output of previous year. • establishment of NABARD

Five Year Plans and NITI Aayog

Seventh Plan (1985 - 90)	The Plan aimed at accelerating food grain production , increasing employment opportunities & raising productivity with focus on ‘food, work & productivity’ . The plan was very successful as the economy recorded 6% growth rate against the targeted 5% with the decade of 80’s struggling out of the ‘Hindu Rate of Growth’ .
Eighth Plan	The eighth plan was postponed by two years because of political uncertainty at the Centre

(1992 - 97) Target Growth 5.6 % Actual Growth 6.8%	Worsening Balance of Payment position, rising debt burden , widening budget deficits, recession in industry and inflation were the key issues during the launch of the plan. The plan undertook drastic policy measures to combat the bad economic situation and to undertake an annual average growth of 5.6% through introduction of fiscal & economic reforms including liberalisation under the Prime Ministership of Shri P V Narasimha Rao. Some of the main economic outcomes during eighth plan period were: Rapid economic growth (highest annual growth rate so far – 6.8 %), High growth of agriculture and allied sector, and manufacturing sector , growth in exports and imports, improvement in trade and current account deficit. High growth rate was achieved even though the share of public sector in total investment had declined considerably to about 34 %.
Ninth Plan (1997-2002)	The Plan prepared under United Front Government focused on “Growth With Social Justice & Equality. “Ninth Plan aimed to depend predominantly on the private sector.
Tenth Plan (2002 - 2007)	Recognizing that economic growth can’t be the only objective of national plan, Tenth Plan had set ‘monitorable targets’ . The targets included reduction in gender gaps in literacy and wage rate , reduction in Infant & maternal mortality rates, improvement in literacy, access to potable drinking water cleaning of major polluted rivers, etc.
Eleventh Plan (2007 - 2012)	Eleventh Plan was aimed “Towards Faster & More Inclusive Growth” Prepared by C Rangarajan.

Five Year Plans and NITI Aayog

--	--

	The broad vision for 11th Plan included several inter related components like rapid growth reducing poverty & creating employment opportunities, access to essential services in health & education, especially for the poor, extension of employment opportunities using National Rural Employment Guarantee Programme, environmental sustainability, reduction of gender inequality etc. Accordingly various targets were laid down like reduction in unemployment (to less than 5 % among educated youth) & headcount ratio of poverty (by 10 %), reduction in dropout rates, gender gap in literacy, infant mortality, total fertility, malnutrition in age group of 0-3 (to half its present level), etc.
	The Eleventh Plan started well with the first year achieving a growth rate of 9.3 per cent, however the growth decelerated to 6.7 per cent rate in 2008-09 following the global financial crisis.

The growth targets for the first three Plans were set with respect to National Income. In the Fourth Plan it was Net Domestic Product. In all the Plans thereafter, Gross Domestic Product has been used.

Five Year Plans and NITI Aayog

TWELFTH FIVE YEAR PLAN (2012-17):

The Twelfth Plan commenced at a time when the global economy was going through a second financial crisis, precipitated by the sovereign debt problems of the Eurozone which erupted in the last year of the Eleventh Plan.

The Twelfth Plan therefore emphasized that our first priority must be to bring the economy back to rapid growth while ensuring that the growth is both inclusive and sustainable.

The broad vision and aspirations which the Twelfth Plan seeks to fulfil are reflected in the subtitle: 'Faster, Sustainable, and More Inclusive Growth'.

Apart from the global slowdown, the domestic economy has also run up against several internal constraints. Macro-economic imbalances have surfaced following the fiscal expansion undertaken after 2008 to give a fiscal stimulus to the economy. Inflationary pressures have built up.

The policy challenge in the Twelfth Plan is, therefore, two-fold. The immediate challenge is to reverse the observed deceleration in growth by reviving investment as quickly as possible. From a longer-term perspective, the Plan must put in place policies that can leverage the many strengths of the economy to bring it back to its real Growth potential.

Achieving sustained growth would require long term increase in investment and savings rate. Bringing the economy back to 9 per cent growth by the end of the Twelfth Plan requires fixed investment rate to rise to 35 per cent of GDP by the end of the Plan period.

Monitorable Targets of the Plan:

Twenty-Five core indicators listed below reflect the vision of rapid, sustainable & more inclusive growth of the twelfth Plan:

Economic Growth:

Real GDP Growth Rate of 8.0 per cent.

Agriculture Growth Rate of 4.0 per cent.

Manufacturing Growth Rate of 10.0 per cent.

Poverty and Employment

Head-count ratio of consumption poverty to be reduced by 10 percentage points over the preceding estimates by the end of Twelfth FYP.

Five Year Plans and NITI Aayog

Education

Mean Years of Schooling to increase to seven years by the end of Twelfth FYP.

Health

Reduce IMR to 25 and MMR to 1 per 1,000 live births, and improve Child Sex ratio (0–6 years) to 950 by the end of the Twelfth FYP.

Reduce Total Fertility Rate to 2.1 by the end of Twelfth FYP.

Infrastructure, Including Rural Infrastructure

Increase investment in infrastructure as a percentage of GDP to 9 per cent by the end of Twelfth FYP.

Increase the Gross Irrigated Area from 90 million hectare to 103 million hectare by the end of Twelfth FYP.

Increase rural tele-density to 70 per cent by the end of Twelfth FYP.

Environment and Sustainability

Increase green cover (as measured by satellite imagery) by 1 million hectare every year during the Twelfth FYP.

Add 30,000 MW of renewable energy capacity in the Twelfth Plan

Reduce emission intensity of GDP in line with the target of 20 per cent to 25 per cent reduction over 2005 levels by 2020.

Service Delivery

Provide access to banking services to 90 per cent Indian households by the end of Twelfth FYP.

NITI Aayog

- **The National Institution for Transforming India, also called NITI Aayog, was formed via a resolution of the Union Cabinet on January 1, 2015.**
- NITI Aayog is the premier policy ‘Think Tank’ of the Government of India, **providing both, directional and policy inputs.**
- While **designing strategic and long-term policies and programmes for the Government of India, NITI Aayog also provides relevant technical advice to the Centre and States.**
- The Government of India, in keeping with its reform agenda, constituted the NITI Aayog **to replace the erstwhile Planning Commission instituted in 1950.**
- NITI Aayog is developing itself as a **state-of-the-art resource center** with the necessary knowledge and skills that will enable it to act **with speed, promote**

Five Year Plans and NITI Aayog

research and innovation, provide strategic policy vision for the government, and deal with contingent issues.

It is supported by an attached office, Development Monitoring and Evaluation Organization (DMEO), Atal Innovation Mission (AIM) and an autonomous body, National Institute of Labour Economics Research and Development (NILERD).

Five Year Plans and NITI Aayog

Composition of #NITlaayog

Chairperson

- Prime Minister

Governing Council

- CMs (States) and Lt Governors (UTs)

Regional Councils

- Formed on need-basis, comprising CMs and Lt Govs of the region

Members

- Full-time basis

Part-time Members

- Max 2, rotational, from relevant institutions

Ex-officio Members

- Max 4 from Council of Ministers, nominated by PM

Special Invitees

- Experts, specialists, practitioners with domain knowledge

Chief Executive Officer

- Appointed by PM for fixed tenure, Secy rank

Secretariat

- As deemed necessary

Five Year Plans and NITI Aayog

IMPORTANT INITIATIVES OF NITI AAYOG:

Various Task forces of NITI AAYOG till date:

Task-force on Agricultural Development headed by Dr. Arvind Panagariya.

Task-Force on Use of Technologies for Agriculture Insurance: headed by Dr. P.K.Agarwal.

Task-Force on Elimination of Poverty - headed by Dr. Arvind Panagariya

Task-Force on Project/ Program Management headed by Amitabh Kant.

Atal Innovation Mission: The Government has set up **Atal Innovation Mission (AIM)** in NITI Aayog with a view to strengthen the country's innovation and entrepreneurship ecosystem by creating institutions and programs that spur innovation in schools, colleges, and entrepreneurs in general. In 2016-17, the following major schemes were rolled out:

- a. **Atal Tinkering Labs (ATLs):** To foster creativity and scientific temper in students, AIM is helping to establish **500 ATLs in schools across India**, where students can design and make small prototypes to solve challenges they see around them, using rapid prototyping technologies that have emerged in recent years.
- b. **Atal Incubation Centres (AICs):** AIM will provide financial support of **Rs.10 crore** and capacity building for setting AICs across India, which will help startups expand quicker and enable innovation-entrepreneurship, in core sectors such as manufacturing, transport, energy, education, agriculture, water and sanitation, etc.

ATL Sarthi:

Atal Innovation Mission (AIM) – NITI Aayog launched **Atal Saarthi, a comprehensive self-monitoring framework to strengthen the ever-growing ecosystem of Atal Tinkering Labs (ATL).**

Atal Innovation Mission is establishing Atal Tinkering Laboratories (ATLs) in schools across India to foster curiosity, creativity, and imagination in young minds; and inculcate skills such as design thinking mindset, computational thinking, adaptive learning, physical computing etc. As of date, AIM has funded 10,000 schools to establish Atal Tinkering Labs (ATLs).

Mentor India is a strategic nation-building program to engage mentors who can lead the way for students of Atal Tinkering Labs across India. We call them "Mentors of Change" who volunteer for mentorship and help students practice future skills such as design thinking. Mentors of Change are instrumental in making the Atal Tinkering Labs a successful platform for

Five Year Plans and NITI Aayog

students by joining in experimenting, innovating, and bringing their knowledge to practice.

Aspirational Districts Programme:

The Aspirational Districts Programme is a **flagship initiative of the Government of India** that targets to **effectively transform the most under-developed districts across the country**.

Launched by the Honorable Prime Minister Shri. Narendra **Modi in 2018**, the ADP aims to **expedite the transformation of 112 under developed districts across 28 States**.

With States as the key drivers, this program focuses on identifying low hanging fruits for immediate improvement and measuring progress made across 49 Key Performance Indicators under **5 broad socio-economic themes:**

Health and Nutrition, Education, Agriculture and Water Resources, Financial Inclusion and Skill Development and Infrastructure.

The programme, a policy priority of the Government of India, is **anchored by NITI Aayog** which works in tandem with central and state governments. The institutional structure adopted in the Aspirational Districts Programme is based **on an inclusive approach to governance – termed as “Sabka Saath Sabka Vikas”** which aims to facilitate growth and development of the entire district, rather than any single population group. **This motto is mirrored in the principle of Leave No One Behind (LNOB), the central and transformative promise of the 2030 Agenda for Sustainable Development.**

NITI Aayog has developed and uses **“The Champions of Change” dashboard** for real time data collection and monitoring. The performance of the Aspirational Districts are available in the public domain portal named “Champions of Change” at championsofchange.gov.in

Women Entrepreneurship Programme

Basic Info

- Name: Swavalambini – Women Entrepreneurship Programme

Five Year Plans and NITI Aayog

- Launched by: **Ministry of Skill Development and Entrepreneurship (MSDE)**
- In collaboration with: NITI Aayog
- Implemented by: National Institute for Entrepreneurship and Small Business Development

The Swavalambini Women Entrepreneurship Programme, launched by **the Ministry of Skill Development and Entrepreneurship in collaboration with NITI Aayog**, aims to **promote women entrepreneurship in India**. The programme specifically targets female students in Higher Education Institutions (HEIs) and focuses on developing an entrepreneurial mindset, along with providing essential skills, training, mentorship, and financial support to help them build and scale their ventures.

The programme aims to ensure that at least 10% of the participants who undergo the Entrepreneurship Development Programme (EDP) successfully establish their own enterprises, thereby contributing to a stronger ecosystem of women-led businesses in India.

Shoonya Programme

The “Shoonya – Zero Pollution Mobility” campaign aims to improve air quality in India by accelerating the deployment of electric vehicles (EVs) for ride-hailing and delivery services. The campaign is administered by **NITI Aayog** and has over 130 corporate partners. Shoonya, meaning zero in Sanskrit, implies the beginning and origination of possibilities. Inspired by this connotation, the Shoonya campaign plans to revolutionise the transport sector with a radical and urgent transition to zero-emission vehicles. **The campaign aims to raise awareness about EVs among consumers and recognise industry efforts while charting a pathway to 100% electrification in India’s urban final-mile connectivity and delivery sector.**

Aspirational Blocks Programme (ABP):

Launched on January 7, 2023.

The programme **focuses on improving governance to enhance the quality of life of citizens and service delivery** in the **remotest and less developed blocks of India**.

An Inter-Ministerial Committee in consultation with States **has identified 500 blocks** from across 27 States and 4 Union Territories of India for the ABP. The committee also recommended that the **number of blocks in a State/UT be based on population (carrying a weightage of 25%)** and the **per capita GDP of the State/UT (carrying a weightage of 75%)**. It also advised that **at least one block is selected from each of the 112 Aspirational Districts**. These 500 blocks are located across 329 districts in 27 States and 4 UTs. Of these, 160 blocks are from the 112 Aspirational Districts.

Five Year Plans and NITI Aayog

Each block will focus on monitoring key socio-economic indicators categorized under major themes:

Health & Nutrition

1. Percentage of pregnant women registered for (ANC) within first trimester
2. Percentage of institutional deliveries against total reported deliveries
3. Percentage of low-birth weight babies (less than 2500g)
4. Percentage of National Quality Assurance Standards (NQAS) certified facilities in Block
5. Percentage of person screened for Hypertension against targeted population in the Block
6. Percentage of person screened for Diabetes against targeted population

Five Year Plans and NITI Aayog

Education

1. Percentage of boys transitioned from Upper Primary to Secondary level
2. Percentage of girls transitioned from Upper Primary to Secondary level
3. Percentage of boys transitioned from Secondary to Higher Secondary Level
4. Percentage of girls transitioned from Secondary to Higher Secondary Level
5. Percentage of elementary schools having PTR less than equal to 30
6. Percentage of schools having adequate no. of girls' toilet facilities

Agriculture & Allied Services

1. Percentage of FPOs formed in the block against total sanctioned
2. Percentage of Soil Health Cards generated against soil sample collection target
3. Percentage of beneficiaries under PM Kisan with land details and AEPB Seeded against total no. of beneficiaries with land details seeded
4. Percentage of Animal Vaccinated with Bovine Vaccination (FMD)
5. Stage of Ground Water Extraction (%)

Five Year Plans and NITI Aayog

Basic Infrastructure

1. Percentage of households with tap connection
2. Percentage of villages declared open Defecation Free (ODF) plus
3. Percentage of Gram Panchayats with BharatNet
4. Percentage of Gram Panchayats with Live BharatNet connection
5. Percentage of Households (HHs) constructed under PMAY-G

Social Development

1. Total number of eligible Households (HHs) added to SHGs
2. Percentage of SHGs that have received Revolving Fund
3. No. of banking touch points (bank branch/BC/IPPB centre) located in the block
4. Percentage of Gram Panchayats with atleast 250 beneficiaries digitally certified under PM Digital Saksharata Abhiyaan
5. Vocal for Local

Five Year Plans and NITI Aayog

This ambitious programme **identifies Block Officials as Leaders of Change**, equipped with the right skills and competencies, to steer and drive transformation in their blocks. These grassroot administrators will work under the encouragement, guidance and support of their respective state and district administrations to achieve their defined strategies and output.

ASPIRATIONAL BLOCKS STRATEGY:

The Aspirational Blocks strategy hinges upon **three broad contours**:

- **Convergence** (of Central & State Schemes),
- **Collaboration** (between NITI Aayog, Central Ministries, State Departments, District & Block Administration) and,
- **Competition** among blocks driven by a spirit of mass Movement.

CAPACITY BUILDING:

Capacity building is a central component of the ABP with the **emphasis on enhancing governance via capacity building**. Capacity building under ABP includes enabling the stakeholders with the necessary expertise, knowledge, and assets required for effective execution of plans. The capacity building strategy is centred on:

- **Programme Orientation and Leadership training:** All Blocks-Level Officials and key stakeholders of ABP shall **undergo an orientation that** would help prepare them as Leaders of Change along with an understanding of programme objectives, key components and implementation strategy.
- **Building domain expertise:** The Block-level Officials shall be provided training and exposure on key priority sectors with an aim to build capacity on planning, implementation and monitoring of progress and outcomes in these priority sectors.

ATAL COMMUNITY INNOVATION CENTRES (ACICS) are a means to **drive innovations towards achieving the Sustainable Development Goals** through novel solutions in the underserved regions of the country. ACICs seek to promote and propagate the benefits of technology led innovations to solve SDG problems by developing a PPP based participatory model in which the grant-in-aid by AIM has to be matched.

ATAL NEW INDIA CHALLENGE (ANIC) is a flagship programme of Atal Innovation Mission, NITI Aayog. **The programme aims to seek, select, support and nurture technology-based innovations that solve sectoral challenges of national**

Five Year Plans and NITI Aayog

importance and societal relevance. The primary goals of the ANIC programme is to incentivize innovations in areas critical to India's development and growth – Education, Health, Water and Sanitation, Agriculture, Food Processing, Housing, Energy, Mobility, Space Application etc. ANIC solicits innovations in the prototype stage and supports the selected start-ups through to the commercialization stage over a course of 12 – 18 months by funding up to INR 1 crore and other associated support from the AIM innovation ecosystem.

THE INDIA ENERGY PORTAL (IEP) presently houses NITI Aayog's flagship initiatives, the India Energy Security Scenarios, 2047 and Energy Dashboards, along with preliminary analysis, data and links to other major energy sector publications for India. In the future, the Portal will accommodate other Energy Division efforts such as Energy Modeling, Geospatial Energy Map of India and other significant research reports.

The **NGO DARPAN** was **earlier maintained by erstwhile Planning Commission, which has been replaced by the NITI Aayog w.e.f. 1st January, 2015.** The Portal, therefore, is being maintained at present under the aegis of NITI Aayog. NITI Aayog invites all Voluntary Organizations (VOs)/ Non-Governmental Organizations (NGOs) to Sign Up on the Portal.

VOs/NGOs play a major role in the development of the nation by supplementing the efforts of the Government. This portal enables VOs/NGOs to enroll centrally and thus facilitates creation of a repository of information about VOs/NGOs, Sector/State wise.

The Portal facilitates VOs/NGOs to obtain a system generated Unique ID, as and when signed. The Unique ID is mandatory to apply for grants under various schemes of Ministries/Departments/Governments Bodies.

'SAMAVESH' is a **programme launched by the NITI Aayog to link together various lead Knowledge and Research Institutions** to catalyse development processes, enhance institutional capacity development and enable a field level interface with the community for mutual enrichment.

As part of this, **NITI Aayog seeks to deepen and extend its institutional capacity through networking and partnerships with reputed knowledge & research institutions to create an ecosystem of evidence - based policy research.** This network will enable efficient knowledge sharing and information exchange among all partners to fulfil their role in transformative policy reform so as to achieve sustainable and more inclusive development in line with Sustainable Development Goals as well as the 15 year Vision, 7 year strategy and 3 year action plan being developed by the NITI Aayog.

Five Year Plans and NITI Aayog
